Coldest spot in us today

More cold temperature in the USA Right now 2020 The enormous storm that has downloaded shows recorded in most of the Texas and then moves to the north-east also brought temperatures to a figure in Houston and Austin. It was caused by a hermit of cold from Canada, and the resulting electrical interruptions and broken water pipes, it cannot be fixed for weeks. Temperatures returned to the 1960s a few days later. Because the United States varies geographically from Maine to Florida and Hawaii, the hottest and colder places in all of Americana can differ 100 degrees. It was almost 90 degrees Fahrenheit in Augusta, Georgia, which made the place as hot in the United States today. In part of Alaska, the temperature is not only below zero, it is well below zero degrees. In an area in the northwestern part of the state, near the Chuckchi sea, the temperature dropped to 32 degrees. That place is Ralph Wien Memorial Airport in Kotzebue, according to El Dorado Weather. US data census indicates that Kotzebue has a population of only 3,287, based on the five-year American survey. Residents are distributed in 130 square miles. People in Kotzebue are relatively wealthy, with a median family income of \$ 81,188, well above the national average. Strangely, the poverty rate, at 18.6% is much higher than the national number. The typical person has a short journey, with a medium travel time of just more than six minutes. The city is self-determines a gateway for Arctic. A e is not unusual for the time to be cold in Kotzebue this time of year. The average temperature range in February is about 5 degrees to ± 5 degrees. By summer, the area heats up considerably, in July the high average is near 60 degrees, with a minimum of about 50 degrees. Each state in the United States continental saw the temperatures descend below zero, the only state that has not seen a temperature under the zero is Hawaii!When winter approaches and the colder temperatures begin to take a foot could be asked only as much as Cold can be obtained in your state. The map below indicates the coldest temperature ever recorded in all 50 states, according, at the National Oceanic and Atmospheric Administration (Noaa). When you take a close look there are some surprises (MORE: WINTER STORM CENTRAL). One of most interesting facts is that every state of the United States continental saw the temperatures descend below Zero.Even Florida fell to 2 degrees below zero on Feb.Â, 13, 1899, in Tallahassee. This occurred during the arctic outbreak in which numerous all times low record temperatures were set, including continuous current Washington (15 degrees below zero); Atlanta, (9 degrees below zero); and Dallas (8 degrees below zero). Flurries were also reported by Tampa to New Orleans during the massive outbreak.The cooler temperature recorded in each state (source: Noaa). The only state that has not seen a temperature below zero is Hawai'i. The lowest temperature recorded in Hawai'i is 12 degrees to the Kea Observatory mauna, which is at an altitude of 13,796 feet, on May 17, of course 1979.OF, as expected, the coldest temperature in the patent is State fixed in Alaska. Mercury dropped to 80 degrees below zero on January 23, 1971 in Prospect Creek in the center of Alaska, north of Fairbanks.The cold temperature recorded in the neighboring United States is 70 degrees below zero, measured at Rogers Pass, Montana, 20 January, 1954.The Older record was set on January 22, 1885 on Mount Washington, New Hampshire, the highest peak in the north-east, when the thermometer dropped to 50 degrees below zero.The most recording of the List was set on February 10, 2011 Ina Nowata, Oklahoma, when Thea Temperature, reached Degrees below zero.notables with Northeast Regionin, Maine, New Hampshire and Vermont all recorded 50 degrees below zero, such as the coldest temperature. New York is, has the coldest record in the region with 52 degrees below zero, and Delaware has the hottest record at 17 degrees Subzero.Records in the in They are colder than you might expect. South Carolina, Georgia, Mississippi and Louisiana Everyone went down to teenagers below zero, while Tennessee saw the mercury dip starting 32 degrees below zero.on interesting, but not unexpected, the note on the Midwest is the difference in the records of Temperature with states south of large lakes to nearby and north-west of large lakes. Illinois, Indiana and Ohio all records in the 30th grade under the zero range, while Michigan, Wisconsin and Iowa have records ranging from 45 to 55 degrees subzero. In the west, elevation makes the difference, as it is in the interior. Rogers Pass, Montana, which holds the record for the coldest temperature in the lowest 48, 70 degrees below zero, rises at an altitude of 5,610 feet above sea level and is located on the continental gap. In Arizona, the record of 40 degrees under the zero was immersed on Lake Hawley at an altitude of 8,200 feet. The lowest temperature ever recorded in the United States was -80 degrees Fahrenheit (-62 degrees Celsius) on January 23, 1971 at the Prospect Creek Camp, located near the Arctic Circle along the Alaska pipeline. This is not much hotter than the record -81.4 Â° F low for North America who rubs it in Yukon fell on February 3, 1947. On that february extremely cold, Tanacross Alaska reached -75 Â° f. The 48 lower United States states affect their officer cold temperature of -70 Â° F on January 20, 1954 at Rogers Pass, Montana. The passage is located at 5,470 feet (1,667 meters) in the mountains in the rocky mountains, northwest of Helena. States in America where temperatures decreased to -50 Â° F (-45 Â° C) or less at least once position Â° e Â° F Â°, Â° C Date proPECT Creek Camp, Alaska -80 -62.2Jan 23, 1971 Rogers Pass, Montana -70 -56.7Jan 20, 1954 Pietro Lavello, Utah -69 -56.1 Feb 1 February 1985 Riverside RS, Wyoming -66 -54.4 Feb 9, 1933 Maybell, Colorado -61 -51.7 Feb 1, 1985 Island Park Dam, Idaho -60 -51.1 January 18, 1943 Torre, Mimesota -60 -51.1 Feb 2, 1996 Parshail, North Dakota -60 -51.1 Feb 15, 1936 McIntosh, South Dakota -58 -50.0 Feb 17, 1936 Tetonía , Idaho -57 -49.4 Feb 9, 1933 Congray, Wisconsin -55 -46.3 Feb 4, 1996 Seneca, Oregon -54 -47.8 Feb 10, 1933 Old Forge, New York -52 -46.7 18 Feb 18, 1979 Vanderbilt, Michigan -51 -46. This region has an annual temperature averages of about 12 ° F (-11 Â° C). Outside Alaska, only four seats between 7,200 average weather stations A temperature of the year which is under freezing. The Peak of Mount Washington in New Hampshire has the coldest climate during the year. Many of the winds more cold are close to Continental divide in Colorado or Yellowstone's Yellowstone National Park. All have an average annual temperature of less than 35 Â° F (1.7 Â° C). Of the four cities that make this list, the cooler is crested butte in Colorado, a recreation resort located high in the mountains. Leadville and West Yellowstone are other mountain cities that are classified among the coldest points of the nation. In fact all the seats, but one of the 20 more colds are high elevations. The Vannello is embarrassed, Minnesota, a rural center north of Duluth in the county of St. Louis, near Lake Vermilion. At 1,400 feet (427 m), it is the only site here that is less than 6,000 feet (1,829 m). Places in the 48 more low countries with the lowest average annual position of the annual temperature Â° e Â° F Â°, Â° C Mt Washington, New Hampshire 27.4 -2.6 Mine Climax, Colorado 30.6 -0.8 Darwin Ranch, Wyoming 31.0 -0.6 Reservoir, Colorado 31.4 -0.3 Wolf Creek ski area, Colorado 33.2 0.7 mt Evans Campo Station, Colorado 33.4 0.8 Yellowstone Lake, Wyoming 33.4 0.8 Crested Butte, Colorado 33.8 1.0 Electric Lake, Utah 33.8 1.0 Daniel Daniel Hatchery, Wyoming 34.0 1.1 Burgess Junction, Wyoming 34.1 1.2 Leadville, Colorado 34.2 1.2 Old Faithful, Wyoming 34.2 1.2 Yellowstone Park South entrance, Wyoming 34.4 1.3 West Yellowstone, Montana 34.4 1.3 Embarrass, Mimesota 34.5 1.4 Taylor Park Reservoir, Colorado 34.6 1.4 BONDURANT, Wyoming 34.7 1.5 Blowhard Mountain, Utah 34.8 1.6 Cooke City-Silver Gate, Montana 34.9 1.6 The average annual temperatures reported here are long-term historical averages, based on weather data collected 1981-2010 for the National Climatic Data Center of the Noaa. The place in the United States, which most often falls below zero is not in the far north, as you would expect. Instead it is in California, a known state more for the heat of incessant cold. BUDIE BODIE at 8,369 feet (2,551 meters) Altitude, near the Nevada border, north of Mono Lake. The former mining city also has more days of frost than in any in Alaska. Not surprisingly, people have given up living in Bodie and is now a ghost town. And yet, not all places that freeze are remote or abandoned. Several cities currently inhabited: Stanley, Fraser, Wisdom, Leadville, Silverton and Dillon. Places in the United States outside the Alaska with temperatures of 32 Â°, Â° C or less on 270 or more days a year Position Freezing Days Bodie, California 308 Darwin Ranch, Wyoming 298 Stanley, Idaho 292 Fraser, Colorado 288 Fremont Forest, near Fort Rock, Oregon 288 Charleston Reservoir, Nevada 281 Yellowstone Park South Entrance, Wyoming 280 Wisdom, Montana 277 Daniel Nursery, Wyoming 276 Wise River, Montana 275 Warren, Idaho 275 Dixie, Idaho County, Idaho 274 Leadville, Colorado 273 Climax Mine, Colorado 273 Wild Horse Reservoir, Nevada 272 Silverton, Colorado 271 Dillon, Colorado 271 Antero Reservoir, Colorado 270 State Forest State Park, Colorado 270 almost every day with more cold temperature on every single day, the city of Stanley Mountain, Idaho is more often the coldest place in the states outside of Alaska. Stanley is located in the middle of Sega National Recreation Area 6,260 feet (1,908 meters) in height. ten top points for almost every day since 1995 to 2005 with the lowest temperature in the contiguous in the US days Stanley, Idaho 398 West Yellowstone, Montana 337 Gunnison, Colorado 170 Truckee, California 161 Alamosa, Colorado 142 Saranac Lake, New York 128 Jackson, Wyoming 109 Berlin, New Hampshire 92 Fraser, Colorado 91 wisdom, Montana 91 91 what is the coldest spot in the united states today
