A Click the A Start Server button.Try to open your software again. It is a location where projects and libraries are stored. A Working/Home directory: The Working Directory is separate from the Installation Directory. Note: the links and menus available from the Cadence Support webpage may appear differently when you use a different browser or have a different window width. A Note item 4 in the DOWNLOADS area of the window that opens. If you receive an error message regarding your dongle, see the instructions in Troubleshooting Dongle Licensing Issues.Connect to Existing Server eAAA When you select this option rather than the recommended default option, you are prompted to set the CDS_LIC_FILE environment variable. Did you find it helpful? You can identify this by entering Hostname into a Command Prompt window.Verify you have a USB port available (optional) eAAA A USB port is necessary only if you plan to use a USB Flex ID key (dongle) for your product license and locking method. A Temporarily disable your security software eAAA active security software may interfere with the installation files; it is recommended you disable security software before installation.Verify you have Administrative rights eAAA Admin rights are needed to conduct the installation of License Manager and recommended for the installation of OrCAD/Allegro software products. A Note: If you already have License Manager installed, it will be uninstalled during the installation process to enable the installation of the most recent version of License Manager.Download & Install Download ManagerThe steps that follow assume you have already created your Cadence account, you have access to the Cadence download web page, and you have completed the preliminary tasks listed above to prepare for installation.Log into the Cadence Support website and open the URL: A Software > Software. If you chose to install License Manager, the installation of License Manager begins. The status bar in the lower part of the window indicates the progress of your installation. A Click the Finish button.Download & Install the Latest HotfixesCadence software products are released to the public as either a major base release or hotfix update. By default, all OrCAD/Allegro products are installed with only the products specifically licensed to you activated. The control file is an EMA provided-file that enables you to install only the products for which you have a license.Click Next to continue. A (Optional Step) If you are installing Capture CIS you may be asked to select the appropriate Footprint Viewer for Capture CIS. Then click the UPDATE link to initiate the download and install of your hotfix.Complete the online instructions presented.Special Notice 1: Running Multiple Versions of the SoftwareYou can access the Cadence SPB Switch Release utility from your Windows Start menu to switch between different versions of the Cadence SPB/OrCAD/Allegro installations. Sections included in this Installation Guide are: Preparing for Installation, Download & Install Download Manager, Download & Install OrCAD/Allegro 17.4 Products, Special Notice 1, Special Notice 2, and A Troubleshooting Dongle Licensing Issues.If you choose to use a dongle for your OrCAD/Allegro product license and locking method, attach the dongle to the USB port of your computer before you begin installation. Then click the Finish A button.Download & Install OrCAD/Allegro 17.4 ProductsNow that you have the Cadence Download Manager installed, you are ready to download and install your OrCAD/Allegro products from Download Manager. A If you are immediately continuing from the above instructions, Download Manager is already active. This ensures your installation includes the latest features and fixes. A Click the version number drop-down arrow and select software version that matches your installation. A After you complete the installation of a base release OrCAD/Allegro application, you need to install the available hotfix updates from Download Manager. If so, save that control file with your license file.Identify the Hostname of your server or local workstation eAAA You need to verify the hostname of the server or workstation where your License Manager is installed. Modified on: Thu, 22 Jul, 2021 at 10:42 AM This guide explains how to install OrCAD/Allegro v17.4 software products using the Cadence Download Manager. Enter the address of the license server. The instructions that follow support stand-alone workstations as well as network licensing. A The option to Run as administrator is available from your right-mouse pop-up menu.The Download Manager lists releases you can download and install in the far left column.Use the vertical scroll bar to navigate the OrCAD and Allegro.Click the version drop-down arrow and select the product version you want to download and install.Click the drop-down arrow and INSTALL link to initiate the download and install process.The download process may take a couple of hours. Other users of the machine can choose Configure A from the Start menu if they want to run SPB/OrCAD/Allegro products on this system.Troubleshooting Dongle LicensingIf you accidentally forget to plug in your dongle before conducting your software installation of License Manager, you may receive an error message. A To resolve this error when the dongle error message displays: A Click OK and plug your dongle into your USB port. A Select the option to connect to an existing license server.Verify the field entries for license server data. A Click Next to continue to the next step of the installation process.Updating an OrCAD/Allegro License File (Mac or Dongle)The eAAA Cadence License Server Configuration Utility eAAA is used to update your licensing for OrCAD/Allegro products you modify your purchase of OrCAD/ products or services you are licensed to use. A If your updated license file is on a dongle, be sure the Cadence licensing dongle is plugged into your computer before you begin. A status window indicates the progress of the download process. A Review and accept the License Agreement. PCB Editor is recommended. You can accept the suggested working directory or specify an alternate location.(Optional step) Click the Custom Installation button if you want to install only the specific OrCAD/Allegro products you are licensed to access. access.
