If you are an Android user, you probably know about Android customization and the best Nova 2021 configurations. How to change icons packets and add custom widgets such as KWGT widgets of choice and predicts mainly with good-looking wallpaper. If your smartphone does not support third-party icons, you need to install a third-party launcher that you will unlock all the functions like applying a group of icons packages, allowing all the gestures to activate certain activities. These are fantastic Android the homescreen settings that use Launcher launcher and launcher, launcher, are some of the best launcher nova configurations that you need to try this year 2021 on your smartphone. All these configurations of HomeScreen Home Launcher Good-Louner Launcher will have different types of packaging and icons widgets. These are the best themes of Launcher Nova of 2021. You can apply all these icons packs and widgets on your smartphone using backup files. Before starting, we need to install a couple of Android customization apps to reach the exact appearance. If you don't know how to customize Android using Nova Launcher and KWGT widgets we have already made a detailed article now like Novare-Launcher you can read this post for a detailed guide to Nova Launcher Setups.Required Appsblue Mountain SetupThis is our first configuration and I have Obtained this beautiful minimal from the wallpaper app. If you are looking for more wallpapers for your configuration, check this post Best Android Wallpaper Apps of 2021. Here you can see I added two widgets for this configuration. The first widget is from the minimum package for KWGT and below, I added a meteorological widget and coming to the icon, here I am using the Asterisk icon that is free to download. Blue-Green Setup Mountain Mountain Setup [Á ě á, ~](#) "The best Launcher Nova configurations for your homeScreeEnthis Android is a simple configuration of the nice-looking domestic screen. I took this background from the Minimalwallz app and coming to widgets I added two widgets The first widget is taken from the Rainbow Kwgt Pack and is available free of charge to download on Google Playstore. Coming to the icons package, here I'm using the green line icons package and fits to the wallpaper . WARNING BIANCO SETUPQUESTE SETUP looks pretty fresh with the white and blue wall with perfect widgets and packaging of corresponding icons. I got this beautiful wall from the Wall Stack App and how you can see here, I added a clock widget that fits to the wallpaper, and this widget is taken by the Magic Kwgt Pack. After all, I added a weather widget from the Android 12 Kwgt widget. Coming to the icon Icon Pack here I don't use the package of Beline and this is my favorite icons package. Dark Lamborghini Setupstunning right? I took this Dope Wallpaper from Unstock. The wallpaper is with the first two red and black colors. To combine the background I changed the widgets in red. At the top, I added this simple clock widget with weather schedules and information. After all, I got this correspondence Google widget from the Andromeda Widget. [Á ě widget](#) to match the wallpaper here I'm using the redline icons package that looks like drugs with dark admitted backgrounds. Dope Android HomeScreen Setupssuper Mario Setupupper Mario Setup [Á ě á, ~](#) "Best Nova Launcher Setup For your HomeScreas Android got this Super Mario background from the top walls app that is ensured in the last video of best apps. On this configuration, I used this simple time widget from the package apex for kwgt and bottom, I added the default Google search widget and coming to the package icon pack and using the icons package Ash. This is Icon Pack is one of the best packages of free icons to try. Best Android Nova Launcher Setups 2021 2022YOU CAN Take a look at our YouTube video tutorial Here you can also check our Android 12 Homescreen guide as we explained in detail how to get the exact Android 12 homescreen to look at Android and get the last Android 12 Material U Design.This Guy The best configurations of HomeScreen Home Launcher are here. You can reach the exact appearance exact Our Nova backup file. All configurations are made using the same homescreen grid, so you don't have to change for each configuration for each configuration. We have created some NOVA launcher themes with the help of wallpapers and packages of icons and other resources resulting in these fantastic pitchers themes. Some themes here include a backup file, which can be imported into your Android phone phone.nova Launcher is probably the best Android launcher is out - the simplicity and capacity to customize the pitcher is something we do not see another launcher frequently . The beta version of Nova always remains high and constantly fits with time. The launcher has also acquired popularity among people from all over the world, the gigantic Lifehacker and AndroidAuthority technological site are also favorable to this launcher. You can download the Launcher Nova, in case you don't already. You can also update or download a beta version of Launcher Nova from the official website. Nova Launcher is not the only launcher there outside, discover some new Android [ě pitchers](#) or check the replacement of the Nova launcher, if you need something like Nova but not nova.best Nova Launcher Themesandroid leaf the first attempt to create a video Personalized for YouTube Pitcher theme inspired by leaves and nature. Everything is green in this theme. The icons are resized to melt in a clean design. And a simple but powerful widget at the top ago is alive. This theme should be your first choice when you are looking for Nova launcher themes. You can make a million themed setups but this is clean and powerful. The resources used are the following. If you need more help, watch this tutorial [ě](#) to get this exact look.flat modern / video video almost stock theme Android with an elegant Google search bar with a modern set of icons. Use HUK Zooper widget at the top of a minimal and colored background. Cake cake; 2018 Setupil Theme Android Pie that originally published on YouTube is a mixture, from the widget to search for the position of the search bar Everything seems fascinating. The resources used are below with a backup file you can download and restore from Nova Launcher settings, make sure you install all apps before restoring backup. See the installation video and the required files are connected below. [Á ě ^¼Á "1. Á ě á, ~"](#) backup Find password here: [Á ě ^¼Á "2.
