You can set how your alarms and timers work, and add clocks for other cities. Set date & time Change time and time zone Open your device's Clock app . Tap More Settings. To pick your home time zone: Tap Home time zone. To add a clock for home while in another time zone: Turn on Automatic home clock. To automatically update the time: Tap Change date & time Set time automatically. To set a time zone automatically: Tap Change date & time Time Zone turn on Set automatically. Important: Your device may use location to determine your time zone. If Use location is turned off, your device location won't be used to detect your time zone. If Use location is turned on, your device location may be used to detect your time zone. Some devices only support using location to set the time zone, like Wi-Fi-only tablets. These don't have a "Use location" setting. To set a time zone manually: Tap Change date & time Time zone. If present: Turn off Set automatically. Tap Time zone and select your time zone. Tip: Only some devices let you automatically set the time zone. Change alarm settings Open your device's Clock app . Tap More Settings. Under "Alarms": Choose how long your alarm rings: Tap Silence after. Choose how long "snoozing" delays an alarm: Tap Snooze length. Change your alarms volume: Use the "Alarm volume" slider. Have an alarm become louder over time: Tap Gradually increase volume. Choose what the volume buttons do: Tap Volume buttons. They can control volume, snooze an alarm, or dismiss an alarm. Pick what day your week starts on: Tap Start week on. Change timer settings Open your device's Clock app . Tap More Settings. Under "Timers": Pick the ringtone that plays when the timer ends: Tap Timer sound. Make the timer sound become louder over time. Tap Gradually increase volume. Have the timer vibrate: Tap Timer vibrate. Tip: Not all devices have a timer vibrate option. Add clocks for other cities Open your device's Clock app . Tap Clock. At the bottom, tap Add . Type the name of a city in the search bar, then tap the city you want to add. Reorder a city: Touch and hold a city, then move it up or down in the list. Delete a city: Swipe to the left or right on the city you want to delete. Related resources Set, cancel or snooze alarms on your Android device

Change your clock's display You can quickly get to Google every time you open your browser by making Google your homepage. Change your homepage Choose a browser below, then follow these steps on your computer: If you don't see your browser below, go to the "Help" section of your browser and look for information on how to change your browser's homepage. Firefox Open your browser and visit www.google.com. Drag the tab to the Home button, then release. Click Yes. Google Chrome In the top right corner of your computer's browser, click More Settings. Under "Appearance," turn on Show home button. Select your current homepage or Enter custom web address. Then, enter: www.google.com. Safari In the top left corner of your screen, select Safari Preferences General. Next to "New windows open with" and "New tabs open with," select Homepage. Next to "Homepage," enter: www.google.com. Internet Explorer In the menu bar on the top of your browser, click Tools. Select Internet Options. Click the General tab. Under "Home page," enter: www.google.com. Click OK. Restart your browser. Microsoft Edge In the upper right corner of your browser, select More Settings. Under "Set your homepage," click the Down arrow A specific page or pages. If you have a current homepage: Next to the URL, click X. Click "Enter a URL". Then, type: www.google.com. Google is stuck as my homepage Google won't change your homepage settings without your permission. Reset your homepage. Choose a browser above, then follow the steps to replace Google with the site you want as your homepage. Check for unwanted programs. If resetting your homepage doesn't fix the problem, you might have unwanted programs called malware that's imitating the Google site. Learn about malware and how to remove it.
