Is scratch a good start to learning programming

Is scratch a good way to learn programming.

Scratch is a free visual programming language developed to simplify the process of creating and programming animations, games, music, interactive stories and more. The Scratch programming language is mainly aimed at children from eight years up, and is designed to teach computational thinking using a simple but powerful approach to software development that focuses more on solving problems than on specific syntax. Originally developed by the Lifelong Kindergarten Group at MIT Media Lab, Scratch is currently available in more than fifty different languages and can be performed on Windows, Macintosh and Linux operating systems. Photo Courtesy: @Microsoft365/Twitter When you have data piles to organize, you need a spreadsheet to match the challenge. As part of the Microsoft Office suite, Excel is one of the most popular options, and for good reasons. Microsoft contains a lot of computing power in its Office products, but all that power won't do you any good if you don't know how to use it. Before insisting on learning a new program, remember that Excel would not be very popular among companies and private individuals, including students, if it was difficult to learn. In addition to the guide and tutorials available directly from Microsoft, the Internet offers many free guidelines to help you learn how to use Excel and other Office programs. Let's take a look at some good options to get started. Search YouTube step-by-stepNon videos there is no doubt that YouTube is a power when it comes to finding tutorials for almost everything, and this includes burning Excel. The best advantage of learning something new on YouTube is that you can visually see the steps and follow them without relying on written instructions that may not make sense. It is a great site to find Excel video with everything, from quick answers to complete a specific task to tutorial on all key elements of the program. program.YouTube The only negative side is that absolutely anyone can do and publish videos on YouTube, which means that some creators will be far from the experts. Be sure to search for videos with lots of views and likes and browse downward comments. You also want to make sure itâ € ¤ â € ¤ s a recent video with instructions for your version of Excel. The general aspect and quality of the video can also provide a clue to the general quality, although some very talented Gurus software aren't26; 128; t great videographers. Another great source of Excel Beginner Training, the CFLguagna Free. The Org site offers easy-to-follow tutorials, step by step to help you do everything to insert simple data columns to complete leaves full of complex calculations. At the end of free training, you will be able to use the full collection of functions, create graphics and more. The tutorial brings you everything you need to find out one step at a time. Finally, you can bookmark page to quickly access Excel Tips and MS Excel formulas. Photo Courtesy: @Microsoft365 / Twitter Donâ € ¤ â € ¤ T Forget it on Microsoft Office Helpmicrosoft Office Office has a supporting website designed to help you understand how to do specific tasks. It also includes a broader excel training for beginners and provides answers to specific questions. If you â € ¤ â € ¤™ is asked how to create a job planning template or you need to create a monthly price sheet, Microsoft offers all these answers and more from within the Excel program. Just click on the help option in the upper menu bar or search for the question mark to get answers to common questions. Photo Courtesy: @ Microsoft365 / Twitter Expand your skills with Excel Jetuna time you have mastered the basics of Excel, you can take advantage of Excel Jet to make work in the program even easier. The complete website offers videos training, formulas and keyboard shortcuts that reduce the time needed to do practically everything. In fact, the main page for exceljet has more than 200 shortcuts to be found inin Windows. A clearly labeled link at the top also takes you to Excel shortcuts on the Mac. Photo Courtesy: @Microsoft365/Twitter Take Tutoring ClasseYou should not like Excel is a programme you canâ € ¤ t learn. If you start small and simply tackle one new task at a time, sky is the limit to learn this efficient spreadsheet software with minimum stress. If you still feel like you're struggling after using all these free resources, you can search for Microsoft Excel tutoring classes in your area, but keep in mind that you probably wonâ € ¤ t find free options. In some areas, public libraries offer free courses for different types of software. Also, if you're a student, your college can offer free software tutorials. Photo Courtesy: @Microsoft365/Twitter FROM QUESTIONSANSWERED. The NET opinions expressed by entrepreneurs are their own. You are reading Entrepreneur South Africa, an international franchise of entrepreneurial media. There's one thing every entrepreneur in every industry can be sure of, and that's making decisions. Starting and managing a franchise can be daunting and franchisees face a myriad of decisions at every turn. Each company has unique qualities based on its specific location, customer demographics and so on, which means no two franchisees will experience the same business scenario. However, it is possible to have a business partner with a network in many industries. At Nedbank we are in a very fortunate position to work with franchisees and franchisors across a variety of industries, which allows us to learn from many entrepreneurs and share our knowledge with all members of the franchise community. Having an expert team of specialists is often the key for a franchise company to get the maximum return on investment as soon as possible. Like the team Emerging Payments and Franchise we start a journey with our customers to co-create solutions that guarantee new and existing are equipped to prosper as quickly and sustainably as possible. Understanding customers is critical to any business and we've created a great data analytics solution that gives our affiliates access to data that only a bank has. We can assure you that the solutions we build give customers what they need not only to grow, but to thrive. Want to know more about emerging payments? Dalene Rowe, currently head of Business Marketing for the Emerging Payments team at Nedbank Franchising, covers more in this video. video.
