

I'm not a robot

This type of procedure is carried out on a day care basis so it is unlikely that you will need to stay in hospital overnight. If you were given a local anaesthetic or numbing spray during the examination, it will wear off in about 30 minutes. If you were given a general anaesthetic, you will be monitored as you wake up about two hours later. Sometimes you may need to stay in hospital overnight especially if you've had a general anaesthetic. You may feel sick or have muscle aches - and you will feel tired for a number of days. You should not eat or drink anything for around two hours after the procedure. (source: The Nemours Foundation) If you had a general anaesthetic for the procedure, you will be taken to a room or comfortable area where you can rest and recover until you're ready to go home. Pain relief: The type of pain relief you're usually given is usually painkillers. You can have with salt water or suck through a straw if you have a problem with pain medication will be given if needed. You might notice some noisy breathing for a few days after the procedure but this is normal and will fade. You may also lose your voice temporarily and it should return within a couple of days. Recovery time A laryngoscopy investigation is a routine procedure and complications are rare. In most cases you will be treated and discharged in the same day but not before we are completely satisfied that you are fit to leave. For the first few days after the procedure you might want to only eat soft foods or liquids, while your throat is a little sore. If you had a biopsy taken during the procedure, you will need to rest your voice for around 10 days after the operation to allow your vocal cords to heal. You will probably be able to return to work 48 hours after the procedure. How your loved ones can help Once you're ready to be discharged, you might want to arrange a taxi, friend or family member to take you home as you won't be able to drive. You should also ask them if they can run some light errands such as shopping for you as you won't be feeling up to it. Looking after you Even once you've left hospital, we're still here for you. Your consultant is likely to want to see you after your operation to see how you're doing. We'll arrange a follow-up appointment before you leave the hospital. We will talk to you about the possible risks and complications of having this procedure and how they apply to you. If you have any questions or concerns about your recovery, we're ready to help. Fibreoptic laryngoscopy Ibm Sina Diagnostic & Consultation Centre is one of Bangladesh's leading healthcare service providers, offering a comprehensive range of medical diagnostic tests. With multiple branches across the country, it is a trusted name for accurate and affordable healthcare solutions. Staying informed about test prices helps patients plan medical expenses effectively. Below is an updated list of Ibm Sina Test prices, including test categories, original prices, available discounts, and company categorizations. For complete details on different sections, Below is a detailed table of commonly performed diagnostic tests at Ibm Sina. #Test Name#Original Price (BDT)#Category#Csf Bb#Chem6045#Biochemistry#2Ca# C13#00225#Biochemistry#3Csf Ldh#00600#Biochemistry#4Csf Protei#00300#Biochemistry#5Csf Sugar#150113#Biochemistry#Endocervical Swab Bio#Chem6045#Biochemistry#7Fluid Uric Acid#300225#Biochemistry#8Joint Fluid Bio#Chem6045#Biochemistry#9Joint Fluid Protein#400300#Biochemistry#10Joint Fluid Sugar#150113#Biochemistry#11Pericardial Fluid Adh#A5638#Biochemistry#12Pericardial Fluid Bio#Chemistry#85638#Biochemistry#13Pericardial Fluid Protein#400300#Biochemistry#14Pericardial Fluid Sugar#150113#Biochemistry#15Pericardial Fluid Albumin#300225#Biochemistry#16Pericardial Fluid Ldh#00600#Biochemistry#17Peritoneal Fluid Adh#A5638#Biochemistry#18Peritoneal Fluid Bio#Chemistry#60045#Biochemistry#20Peritoneal Fluid Ldh#00600#Biochemistry#21Peritoneal Fluid Protein#350263#Biochemistry#22Peritoneal Fluid Sugar#150113#Biochemistry#23Synovial Fluid Bio#Chem6045#Biochemistry#24Pl.
